

Two Webinars, Two Great Topics!

Battery-Powered Computers with Pete Daihou

Sign up now—there's not much time left!

Pete Daihou

Battery-powered computers can be used to teach keyboarding and writing as well as English, math, and testing skills. These lightweight, inexpensive alternatives or extensions to laptops and personal computers teach students without distracting them with too many features. Presenter Pete Daihou, CEO of Battery-Powered Computers, discusses how these computers can be used in the classroom and shares examples of different models that are available. Pete Daihou is currently an assistant principal of a primary school and principal of a coaching/mentoring school. Daihou has also been a teacher, a teaching executive,

a staff developer, and a university lecturer.

PLN: Building and Growing Your Own Professional Learning Network with Naomi Harm

Learn how to get the most out of your professional learning network. Create valuable online communities with social media to aid in your personal and professional growth. The webinar is for educators who already have a robust professional learning network (PLN) and for educators who are still looking to build an online PLN. Presenter Naomi Harm discusses using Twitter, Facebook, Ning, and Delicious. She shares tips and tricks on leveraging your network and recommends people who should be a part of every educator's PLN.

Wednesday, January 6
1 p.m. Pacific/4 p.m. Eastern
