1. DPA Enhancements

Streamlined Interface. Easier to use. New Features!

We have made it easier for students to access their DPA Log and Add Multiple, Repeating Activities!

- a. **The Student DPA page has been redesigned.**
 - o First Time DPA Students will find setting up their Account and creating their DPA Log quicker and easier.
 - o Returning Students will also be able to more quickly access their existing DPA Log.
- b. **New Feature: Repeating activities!**
 - o Students can now select the days of the week and a date range for a repeating activity (similar to booking a recurring meeting in Outlook).
 - o Students that participate in the same activity on certain days of the week (e.g., Wednesday morning hockey practice) can now log the activity with just a few mouse clicks.
