

PAC CyberSafe Workshop Outline

Each PAC is asked to identify an individual to facilitate one or more workshops for parents and other responsible adults to deal with the issue of cyber safety. PACs may choose to identify more than one facilitator either to deliver the workshop (co-facilitate) or to deliver more than one workshop.

The goal of the workshop is to encourage parents to engage in the new social aspects of the Internet by signing up for Facebook and joining Steve Dotto's CyberSafe community ("CyberSafe with Steve Dotto"). This will enable parents to provide guidance to their children as they and their kids continuously learn about social networking tools on the Internet.

Using Steve Dotto's presentation at the 2008 BCCPAC Conference and the *CyberSafe with Steve Dotto* video clips available at LearnNowBC.ca, facilitators will deliver a 90 minute interactive workshop at their school.

A Workshop Facilitator's Guide will have content and suggestions for activities. Here is a rough outline of the Workshop:
